COMMITMENT TO EXCELLENCE:

- Focused on continuous improvement and surpassing client expectations.

DUTY CALCULATOR

Sa Freights International PVT LTD proudly introduces its new and improved *Duty Calculator*, a powerful digital solution designed to simplify the vehicle import process for Pakistani customers. Built with precision and user convenience in mind, this innovative tool enables potential importers to accurately estimate customs duties for cars, motorcycles, and commercial vehicles within seconds.

The Duty Calculator uses advanced logic based on engine capacity (CC), electric vehicle (EV) configurations, and specific vehicle variants to generate highly reliable duty estimates. This eliminates the guesswork traditionally associated with import costing, allowing users to make informed financial decisions before committing to a purchase. Whether you are importing a compact car, a high-performance bike, or a commercial fleet vehicle, the calculator adapts to provide tailored results for every category.

One of its standout features is the ability to generate a downloadable report. This allows users to save, review, and share their duty breakdown effortlessly, making it especially useful for record-keeping or consultation purposes. The interface is designed to be intuitive and user-friendly, ensuring that even first-time importers can navigate the process with ease.

By combining accuracy, speed, and accessibility, the Duty Calculator reflects Sa Freights International's commitment to innovation and customer empowerment. It not only streamlines the import journey but also enhances transparency in duty estimation, positioning the company as a forward-thinking leader in freight forwarding and customs clearance solutions in Pakistan.

Customs Clearance

Customs clearance is one of the most critical stages in the import and export process, and even minor errors can lead to costly delays, penalties, or shipment holds. At SA Freight International, we provide a seamless and fully managed customs clearance service designed to simplify complex regulatory procedures and ensure your cargo moves efficiently across borders.

Our experienced team possesses in-depth knowledge of local and international customs regulations, documentation requirements, tariff classifications, and compliance standards. Whether you are importing commercial goods, personal shipments, or specialized cargo such as vehicles, we handle every aspect of the clearance process with precision and professionalism.

We assist with accurate documentation preparation, duty and tax calculations, HS code classification, and coordination with customs authorities. Our strong relationships with regulatory bodies enable faster processing and reduced clearance times, ensuring your shipments are released without unnecessary delays.

In addition, we provide advisory support to help clients understand import/export policies, avoid compliance issues, and optimize costs. From pre-shipment planning to final delivery, our goal is to eliminate uncertainty and provide a smooth, transparent experience. With a focus on efficiency, compliance, and reliability, SA Freight International ensures that your goods clear customs quickly and securely, allowing you to focus on growing your business without operational disruptions.

FREIGHT FORWARDING

Freight forwarding is the backbone of global trade, and at SA Freight International, we deliver comprehensive solutions that ensure your cargo reaches its destination safely, efficiently, and on time. Our freight forwarding services are designed to handle shipments of all sizes, from small consignments to large-scale commercial cargo.

We offer a full range of transportation options, including air freight, sea freight (FCL and LCL), and land transportation. Our team carefully evaluates your shipment requirements to recommend the most cost-effective and time-efficient route, balancing speed, budget, and cargo sensitivity.

From initial booking to final delivery, we manage the entire logistics chain. This includes carrier selection, route planning, documentation, cargo consolidation, warehousing coordination, and real-time tracking. Our global network of partners enables us to provide reliable services across major trade routes worldwide. We understand that every shipment is unique, which is why we prioritize flexibility and customization. Whether you require urgent air freight for time-sensitive deliveries or cost-efficient sea freight for bulk cargo, we tailor our solutions to meet your specific needs.

Our proactive communication ensures that you are always informed about your shipment status, while our operational expertise minimizes risks and delays. With SA Freight International, you gain a trusted logistics partner committed to delivering excellence at every stage of the shipping process.

LUXURY CARS & SUPERBIKES

Transporting luxury cars and superbikes requires specialized handling, precision, and a deep understanding of high-value cargo logistics. At SA Freight International, we offer dedicatedsolutions for the safe import, export, and clearance of premium vehicles, ensuring they are handled with the utmost care from origin to destination.

Our team is experienced in managing the unique requirements associated with luxury and performance vehicles, including secure packaging, containerization, and compliance with regulatory standards. We provide tailored transport options such as enclosed containers and specialized carriers to protect vehicles from damage during transit.

In addition to transportation, we handle all necessary documentation, customs clearance procedures, and regulatory approvals. Our expertise in vehicle import policies ensures a smooth and hassle-free process, reducing the risk of delays or compliance issues.

We also offer consultation services to guide clients through duties, taxes, and registration requirements, helping them make informed decisions before shipment. Whether you are importing a single luxury vehicle or managing a fleet, our solutions are designed to provide convenience, transparency, and peace of mind. With a strong focus on security,

efficiency, and professionalism, SA Freight International ensures that your high-value vehicles are delivered safely and in pristine condition, reflecting the premium standards you expect.

CONSULTATION & GUIDANCE

Navigating the complexities of international logistics requires more than just operational support it demands expert consultation and strategic guidance. At SA Freight International, our consultation and guidance services are designed to help businesses make informed decisions, optimize supply chains, and avoid costly mistakes.

We work closely with clients to understand their unique shipping requirements, business goals, and operational challenges. Based on this, we provide tailored recommendations covering transportation methods, documentation, regulatory compliance, and cost optimization strategies.

Our team offers expert insights into import/export regulations, customs procedures, duties, and taxes, ensuring that clients remain compliant with local and international laws. We also assist in planning shipments, selecting appropriate logistics solutions, and identifying potential risks before they arise.

For businesses entering new markets or managing complex shipments, our consultation services provide clarity and confidence. We help streamline processes, improve efficiency, and enhance overall logistics performance. Whether you are a first-time importer or an established enterprise, our goal is to act as your trusted advisor, guiding you through every stage of the logistics journey with transparency and expertise.

GOVERNMENT RELATIONS

Effective coordination with government authorities is essential for smooth logistics operations, particularly when dealing with imports, exports, and regulatory compliance. At SA Freight International, our government relations services are designed to bridge the gap between businesses and regulatory bodies, ensuring seamless communication and faster approvals.

We maintain strong working relationships with customs authorities, port officials, and other regulatory agencies. This enables us to facilitate efficient processing of documentation, permits, and clearances, reducing delays and administrative challenges.

Our team stays updated with evolving policies, regulations, and compliance requirements, allowing us to provide accurate guidance and proactive support. We assist clients in navigating complex legal frameworks, ensuring that all procedures are handled correctly and efficiently.

From obtaining necessary approvals to resolving compliance issues, we act as a reliable intermediary, representing our clients' interests with professionalism and integrity. Our goal is to simplify bureaucratic processes and ensure that your shipments move without unnecessary obstacles.

CONTAINER PROCESSING

Container processing plays a vital role in ensuring the efficient movement and handling of cargo within the logistics chain. At SA Freight International, we offer comprehensive container processing services designed to optimize storage, handling, and distribution operations.

Our services include container handling, unloading, loading, inspection, and storage coordination. We utilize efficient systems and processes to ensure that cargo is managed safely and systematically, minimizing the risk of damage or loss.

We also assist with container documentation, tracking, and scheduling, ensuring that shipments are processed on time and aligned with delivery requirements. Our team works closely with ports, terminals, and warehouses to streamline operations and reduce turnaround times.

Whether dealing with full container loads (FCL) or less-than-container loads (LCL), we provide flexible solutions tailored to your specific needs. Our focus on efficiency and accuracy ensures that your cargo moves smoothly through every stage of the process.

By combining operational expertise with advanced handling techniques, SA Freight International delivers reliable container processing services that enhance supply chain performance and reduce operational complexities.

CUSTOMER SUPPORT

At SA Freight International, customer support is at the core of our service philosophy. We understand that logistics can be complex and time-sensitive, which is why we are committed to providing responsive, reliable, and personalized support at every stage of your shipment.

Our dedicated support team is available to assist with inquiries, provide shipment updates, and resolve any issues promptly. We prioritize clear communication, ensuring that clients are always informed and confident about their logistics operations.

From initial consultation to final delivery, we maintain a proactive approach, anticipating potential challenges and addressing them before they escalate. Our goal is to create a seamless experience where clients feel supported and valued throughout the process.

We also provide guidance on documentation, compliance, and logistics planning, helping clients make informed decisions. Whether you require assistance with a single shipment or ongoing logistics operations, our team is always ready to help.

With a strong focus on professionalism and customer satisfaction, SA Freight International delivers support services that build trust and long-term partnerships.

TAILORED SOLUTIONS

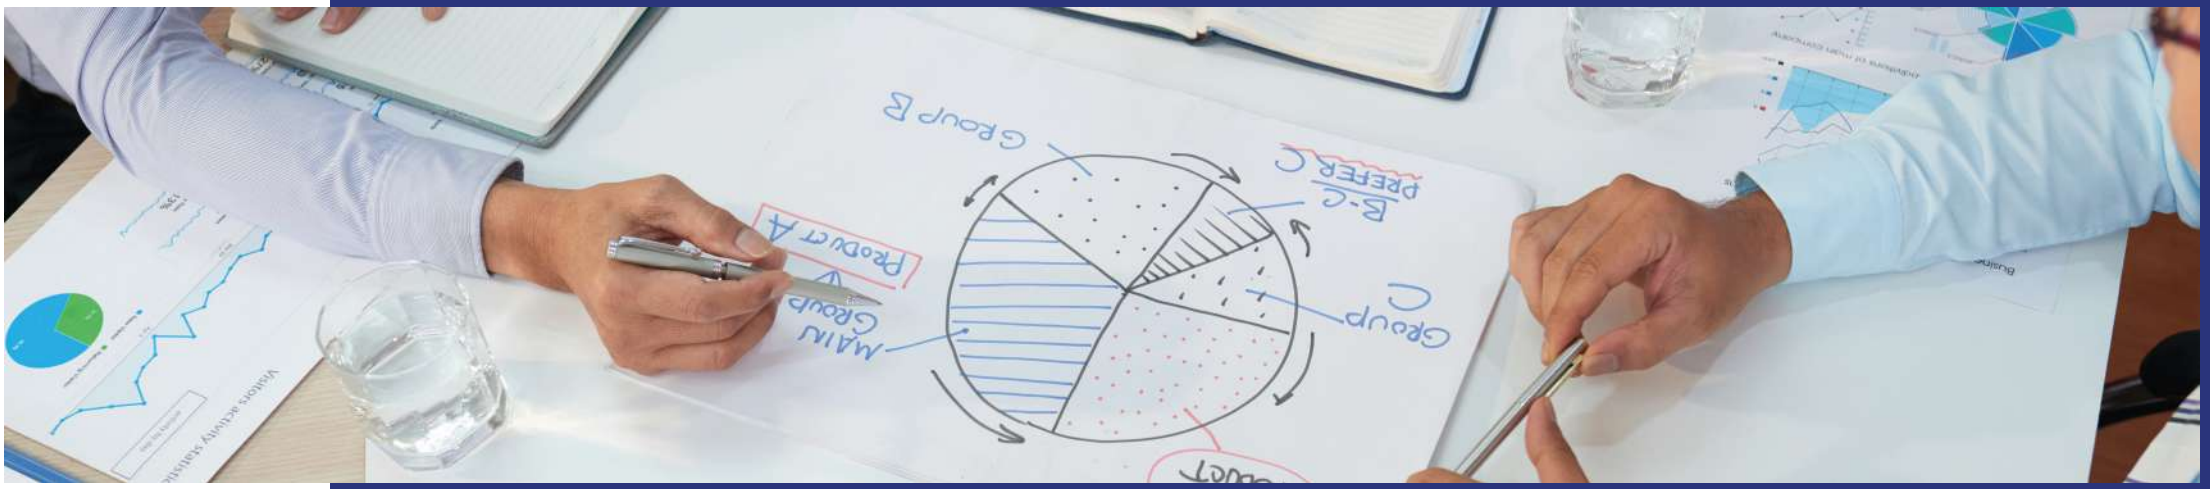
Every business has unique logistics requirements, and a one-size-fits-all approach is rarely effective. At SA Freight International, we specialize in delivering tailored solutions that are customized to meet the specific needs of each client.

Our process begins with a thorough understanding of your business operations, shipment requirements, and strategic goals. Based on this, we design logistics solutions that optimize efficiency, reduce costs, and enhance overall performance.

Whether you require specialized transportation, complex supply chain management, or customized handling solutions, we provide flexible and scalable services that adapt to your needs. Our team leverages industry expertise and innovative strategies to deliver solutions that align with your objectives.

We also focus on continuous improvement, regularly evaluating and refining our solutions to ensure optimal results. By combining personalized service with operational excellence, we help businesses achieve greater efficiency and competitiveness in their logistics operations.

With SA Freight International, you gain a partner dedicated to delivering solutions that are as unique as your business.



OTHER SERVICES

In addition to our core offerings, SA Freight International provides a range of additional services designed to support diverse logistics needs. These services complement our primary solutions and ensure that clients have access to a complete, end-to-end logistics experience.

Our additional services may include warehousing coordination, cargo insurance assistance, documentation support, and specialized handling for unique shipments. We aim to provide comprehensive solutions that address every aspect of the logistics process.
We understand that businesses often require flexibility and adaptability, which is why our additional services are designed to be customizable and scalable. Whether you need short-term support or long-term logistics solutions, we are equipped to meet your requirements.

Our team works closely with clients to identify specific needs and deliver solutions that enhance efficiency and reliability. By offering a wide range of services under one roof, we simplify logistics management and reduce the need for multiple service providers.

With SA Freight International, you benefit from a holistic approach to logistics, ensuring that all your operational needs are met with professionalism and expertise.
